The workshop will provide advice about general topics such as developing budgets, human subjects, and the peer review process, as well as providing specific input on each participant’s individual research proposal. In preparation for the workshop, participants will write an R03-type proposal (for general information about the NIH R03 mechanism see http://grants.nih.gov/grants/funding/r03.htm). These proposals are only 6 pages long (single-spaced). Each participant will be assigned a mentor who will read the proposal prior to the workshop and provide input. Because we will need to recruit appropriate mentors, participation in the workshop will be on an invited basis only. To apply for this workshop, please send a one page abstract of your research idea by August 1, 2010 to Erin Oates. Questions can also be directed to Erin at 255-1960.
